4. THREE WINNING CREATIVE ANGLES (PICK OR PITCH ONE)

ANGLE A: "THE $10K/MONTH CLIPPING SECRET"

AGENCY / HUSTLE

Hook (0-3s): "How clipping channels are pumping out 50 viral shorts a day without opening Premiere..."

Body (3-25s): Show how slow and painful manual cropping, keyframing faces, and captioning is. Cut immediately to AUTOCLIPIN running: drop in a podcast link → face tracking centers the speaker automatically → pop captions auto-generate.

CTA (25-35s): "You get 70 free clips every week. Download AUTOCLIPIN (link in bio)."

ANGLE B: "PREMIERE PRO VS AUTOCLIPIN SPEED TEST"

SPLIT SCREEN BATTLE

Hook (0-3s): Split screen timer: Editing a short manually in Premiere vs 1-click AUTOCLIPIN.

Body (3-25s): Premiere side is painfully keyframing motion and fixing subtitles at 25 minutes. AUTOCLIPIN side finishes in 45 seconds with perfect 9:16 framing, kinetic text, and instant export.

CTA (25-35s): "Stop wasting hours on manual edits. Try the AUTOCLIPIN desktop app free today."

ANGLE C: "AI NEURAL TRACKING MAGIC"

TECH & VISUAL WOW

Hook (0-3s): "This free desktop app tracks podcaster faces smoother than a human cameraman..."

Body (3-25s): Zoom-in on a dynamic Joe Rogan or gaming stream where the speaker paces or shifts. Show how the bounding box tracks them cleanly into 9:16 vertical without cutting them off.

CTA (25-35s): "Download the all-in-one bundle on Windows now."
